PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate (2026) with strong expertise in Java, Python, Data Structures, and Object Oriented Programming. Experienced in developing scalable applications across full-stack development, cybersecurity, and machine learning domains, with hands-on exposure to real-world problem solving. Adept at writing efficient algorithms, building RESTful solutions with Spring Boot and MySQL, and working with modern web technologies including React.js. Seeking to contribute as a Software Developer by delivering high-quality, performance-driven software solutions.

INTERNSHIP & WORK EXPERIENCE

Jan 2025 – May 2025	Java Full Stack & Spring Boot Development Intern, Talent Lad (AICTE) - Developed robust backend services and microservices using Java and the Spring Boot framework. - Built high-performance RESTful APIs for handling core application data, business workflows, and user authentication. - Integrated MySQL database with Spring Boot applications using Hibernate and JPA for reliable, efficient data management. - Collaborated with senior engineers to implement MVC architecture, validation schemas, and automated endpoint testing.
Oct 2024 – Nov 2024	Web Development Intern (Frontend), Codesoft Company - Developed modern, responsive frontend components for web applications ensuring seamless user experience and efficient data handling. - Collaborated actively with cross-functional team members to design structured, accessible interfaces for optimal data presentation. - Strengthened practical understanding of the software development lifecycle (SDLC), Git version control workflows, and cross-browser responsiveness.

EDUCATION

2022 – 2026	Bachelor of Technology – Computer Science and Engineering Bharath Institute of Higher Education And Research University, Chennai, Tamil Nadu — Score: 91.4%
2020 – 2022	MPC Board of Intermediate Education (Class XII) Sri Vidwan Junior College, Warangal, Telangana — Score: 94.9%
2019 – 2020	Secondary School Certificate (Class X) — Telangana Board T.S MODEL SCHOOL, Mahabubabad, Telangana — Score: 95.0%

PROFESSIONAL CERTIFICATIONS

- NPTEL Certificate – Big Data Analytics:** National programme on technology enhanced learning certification in big data and distributed data workflows.
- Samsung Innovation Certificate (NSIC / Coding & Programming):** Advanced coding and software engineering algorithms certification.
- Full Stack Java Development Certificate:** Comprehensive enterprise Java & Spring Boot mastery from Talent Lad.
- Machine Learning Using Python — Coursera:** Supervised learning, neural modeling, and algorithmic regression analysis.
- Data Structures and Algorithms — Coursera:** Rigorous mastery of algorithm design, computational complexity, and dynamic programming.
- Google AI/ML Certificate — EduSkills:** Practical machine learning pipelines and artificial intelligence foundations.

FEATURED TECHNICAL & FULL-STACK PROJECTS

SmartVote Bharat (SmartVote-AI) — Sovereign Digital E-Voting System [Live Demo ↗ | GitHub ↗]

Tech Stack: Spring Boot 3.3, React 18, Vite, AI Facial Security, SHA-256 Cryptographic Sealer, MySQL, Tailwind CSS

- Architected a sovereign digital electoral voting platform complying with Article 324 of the Constitution of India, guaranteeing 100% secret balloting and immutable SHA-256 cryptographic ballot sealing.
- Implemented AI real-time facial verification & liveness detection in the polling chamber, preventing biometric spoofing and ensuring zero duplicate votes.
- Engineered dual-layer Election Commission & Returning Officer audit consoles, verifiable digital voter slips, and a public cryptographic receipt verification engine.

Banking Management System (APEX TRUST) — Enterprise Core Banking Platform [Live Demo ↗ | GitHub ↗]

Tech Stack: Spring Boot 3 (Java 21), Angular 19, TiDB Serverless / MySQL, JWT, Liquibase, Docker, Render

- Architected an enterprise core banking platform using Spring Boot 3 and Angular 19 with TiDB Serverless (distributed MySQL) and automated Liquibase schema migrations.
- Engineered 4-tier Role-Based Access Control (Admin, Branch Manager, Teller, Customer) secured by stateless JWT authentication, BCrypt encryption, and audit trail logging.
- Built real-time transaction and ledger engine handling branch-level customer onboarding, account creation approval workflows, inter-account fund transfers, and ACID ledger consistency.

MS Mobiles — Omnichannel E-Commerce Platform — Web & Native Android Application [Live Demo ↗ | GitHub ↗]

Tech Stack: Spring Boot 3, React 18, TiDB Cloud (AWS MySQL), Spring Security 6, JWT, Capacitor 8, jsPDF, Cloudinary CDN

- Architected an enterprise-grade e-commerce ecosystem using Spring Boot 3, React 18, and TiDB Cloud with stateless JWT / Spring Security 6 role-based authentication and dynamic smartphone catalog management.
- Engineered an official PDF GST Tax Invoice generator adhering to statutory tax rules (HSN 8517, CGST/SGST/IGST breakdown) with Indian Rupee number-to-words conversion.
- Built real-time stock alert engine dispatching notifications on administrative inventory restocks; packaged storefront into a native Android App via Capacitor 8 with offline PWA support.

AI Job Application Bot & ATS Platform — Autonomous AI Automation System [Live Demo ↗ | GitHub ↗]

Tech Stack: Spring Boot 3, React 19, MySQL, Local Ollama (Llama 3), Google Gemini, Playwright, Render

- Built an end-to-end autonomous job automation engine using Spring Boot 3, React 19, and MySQL, processing candidate resumes with ATS semantic matching and instant PDF compilation.
- Integrated multi-model AI workflows (Local Ollama Llama 3 & Google Gemini) to generate personalized cover letters, tailored resumes, and 3-tier interview prep kits without token costs.
- Orchestrated automated job applications using headless Playwright with screenshot proof verification, cron scheduling, and email confirmation dispatching.

TECHNICAL SKILLS

Programming Languages	Java, Python, C, JavaScript, SQL, DSA (Data Structures & Algorithms)
Backend Development	Java, Spring Boot, REST APIs, OOP Principles, Hibernate, Microservices, Spring Security, JWT
Web Technologies	HTML, CSS, Bootstrap, React.js, Node.js, Tailwind CSS
Database Management	MySQL, Relational Schema Design, Query Optimization
Tools & Platforms	Git, GitHub, VS Code, IntelliJ, Postman, Docker, Render
Core Strengths	Strong Problem Solving & Analytical Thinking, Good Understanding of OOP & Backend Logic, Effective Team Collaboration & Communication, Quick Learner with High Adaptability

DECLARATION

I hereby declare that the information provided in this resume is true and correct to the best of my knowledge and belief.
